

TREE PLANTATION DRIVE REPORT

TREE PLANTATION DRIVE REPORT

SAVLI EAST WAGHODIA WEST ASSOCIATION OF INDUSTRIES

SEWWA

Date of the Tree Plantation: 10TH July 2023 Location: R S FOIL, Pratapnagar, Samlaya

Number of Participants: 15

Names of Participants:

Supporters :

Introduction: On 10th July 2023, the members of our association organized a tree plantation drive at R S FOIL. The main objective of the drive was to contribute to the environment by planting trees and raising awareness about the importance of sustainable practices. This report outlines the activities conducted and the outcomes achieved during the tree plantation drive.

Activities:

1. Preparations:
 - Selection of a suitable location for the drive, considering factors such as accessibility and available space.
 - Coordination with local authorities and obtaining necessary permissions for the plantation.
 - Procurement of saplings from a reliable nursery, ensuring a diverse range of native tree species.
2. Awareness Campaign:
 - Prior to the event, we conducted an awareness campaign through Whatsapp and posters in the SEWWA group.
 - The campaign emphasized the importance of tree plantation for environmental conservation and encouraged community participation.
3. Tree Plantation Drive:
 - On the day of the drive, total @14 members actively participated and gathered at the designated location even weather condition is high rainy.
 - High tea and mementoes given to participant by mr. Madhav kejrival ji (R S Foil ltd) & mr Yash Agrawal (RSF Hytek)

- 
- A brief session was conducted to educate the participants about proper planting techniques, including the selection of suitable planting sites and proper watering methods.
 - The planting process was carried out with utmost care and attention to ensure the healthy establishment of the saplings.
 - Our association members worked together, providing support and guidance to one another throughout the plantation drive.
4. Post-Plantation Care:
- After the trees were planted, we emphasized the importance of regular watering, mulching, and protection against pests.
 - We also discussed the long-term responsibility of nurturing the trees and encouraged members to monitor their growth periodically.

Outcomes:

1. Number of Trees Planted : 15 at programme venue,
:15 to 20 plant distributed to each and every member unit 1000 plants are distributed to member units
2. Species Diversity: We ensured a diverse range of tree species, including native varieties that are well-suited to the local ecosystem.
3. Environmental Impact: The tree plantation drive contributed significantly to environmental conservation by enhancing the green cover in our community, improving air quality, and providing habitats for wildlife.
4. Community Engagement: The drive successfully engaged our association members and fostered a sense of collective responsibility towards the environment.
5. Future Initiatives: We have planned to conduct follow-up sessions to monitor the growth of the planted trees and organize periodic maintenance activities such as watering and pruning.

Conclusion: The tree plantation drive organized by our SEWWA was a resounding success. It not only contributed to the environmental well-being but also strengthened the bond among our members. We express our gratitude to all the participants for their active involvement and dedication to making our community greener. We believe that such initiatives will inspire others to join hands in conserving our planet for future generations.
